## Tell us about your link

We are carrying out a survey to find out how many community groups in the UK are already in touch with a group in a developing country, what activities they do together, and what support they would like.

The survey findings will help shape the DFID Community Linking Programme (DCLP), which will launch in 2010.

Visit [www.dfid.gov.uk/dclp](http://www.dfid.gov.uk/dclp) to tell us your linking story.

DCLP is an exciting new programme funded by the Department for International Development and managed by the British Council. It aims to increase understanding of global development issues, and offers funding and support to community groups in the UK that have a link with a community group in a developing country.
